Two years ago was the first time in modern memory that all Kansas students were enrolled in school prior to Labor Day. Last year, and again this year, one small district begins school after Labor Day. This trend, toward earlier starting dates and earlier fall activities calendars, began several years ago and now virtually all schools play a football game before Labor Day.

A bit more than 3 of 4 districts (75.3%) and almost 9 out of 10 students (88.8%) will have begun school 2 weeks before Labor Day. All but 3 districts (99.0%) and 1,917.7 students (not quite 0.4%) will start school at least one week before Labor Day weekend.

This bulletin is not being mailed but is available in "pdf" format on the KASB website. For detailed printouts of the districts starting and ending school on each date (also available on the website), or for additional copies of this report, call the KASB Research Department (1-800-432-2471) or email your request with a return address to: research@kasb.org.
